3.1. OVERVIEW. It is DoDEA policy that command-sponsored school-age dependents of DoD sponsors assigned overseas where a school operated by the DoD is not reasonably available may be authorized financial and other support to assist in defraying the costs of educational options.

3.2. ELIGIBILITY POLICY.

a. While assigned overseas, command-sponsored school-age dependents of DoD sponsors may be authorized financial and other support to assist in defraying the costs of education in schools not operated by DoD.

b. The financial assistance to defray the costs of the authorized expenses for the education of command-sponsored school-age dependents shall, to the maximum extent practicable, be consistent with the DSSR relating to the education allowance for their assigned location or educational option.

c. Eligibility for financial assistance is determined based on the definition of “command-sponsored dependents” of DoD personnel assigned to an overseas location as outlined in Section 932 of Title 20, U.S.C. and DoD Instruction 1315.18.

d. Approval for the enrollment of a command-sponsored school-age dependent is based on permanent change of station orders, which are used to verify eligibility and required prior to enrolling in an educational option.

e. If erroneous or misleading information is found to have been provided for eligibility determination, the sponsor shall be responsible for reimbursing the U.S. Government for all costs incurred by the DoD.

f. Enrollment is authorized beginning with the year prior to the U.S. equivalent of first grade and consistent with the prescribed age requirement for kindergarten and first grade included in the eligibility guidelines outlined in the program Web site.

g. Subject to review and approval, eligible school-age dependents may complete the current school year if their sponsor is transferred, dies, or retires during the school year, if the dependents are authorized to remain in the country based on the terms of a status of forces or host nation agreement, host nation and international laws, and timeframe of retirement.

3.3. EDUCATION OPTIONS POLICY.

a. Parents have the right to choose the educational setting for their child, with authorization up to the education allowance rate for that location and educational option, as determined by the Department of State and within the allowable expenses as outlined in Section 4 of this AI. If a sponsor chooses an educational setting where the costs exceed the education allowance for that location and educational option, the sponsor is responsible for the costs that are in excess of the authorized education allowance rate as established by the DSSR.

b. Section 932 of Title 20, U.S.C. authorizes financial assistance to assist in defraying the costs of education for schools deemed “satisfactory to the Secretary” when a DoD school is not reasonably available. This assistance is not intended to provide the exact same educational options that are available in DoDEA schools.

c. Allowable expenses outlined in Section 4.1.a. are authorized in addition to the educational allowance amount, are paid one time during the sponsor’s tour except when:

- (1) The school does not offer the next grade; or
- (2) The school is not able to accommodate the educational needs of the child; and
- (3) The maximum education allowance for the school year has not been exceeded.

d. Any change of educational settings during the school year is subject to a review of fees paid to date and a school’s withdrawal and refund policies.

e. Enrollment at any point during the school year is subject to the proration of the allowable financial assistance rate as determined by the DSSR for the education option.

f. Allowable expenses will be paid according to the published educational setting fee schedule. In accordance with DoD 7000-14-R, payments may be paid in advance, either for the entire school year, by installments, or when a monetary advantage, such as a discount, applies.

3.4. SPECIAL EDUCATION SUPPORT POLICY.

a. DoDEA is required to provide a free and appropriate public education (FAPE) in the least restrictive environment to eligible dependents (ages 3-21) enrolled in the non-DoD school in accordance with DoD Instruction 1342.12 and DoD Manual 1342.12. Such dependents are eligible for receipt of a special education allowance to meet the requirements in the student’s Individualized Education Plan (IEP).

b. If the overseas educational screening process determines that the educational program(s) available in an overseas location cannot provide FAPE to an eligible student with disabilities, as specified in their IEP, then the program(s) will be deemed not satisfactory to the Secretary of Defense in accordance with Section 926 of Title 20, U.S.C. DoDEA is not authorized to provide financial assistance to fund programs deemed not satisfactory. DoDEA shall, however, offer to provide a FAPE through another educational option, including if appropriate to the needs of the individual child, placement in a residential program for children with disabilities or home-school instruction.

c. Home-school instruction may be authorized and funded only when it is determined through a child’s IEP that it is an appropriate placement that provides FAPE. Military Medical Departments and DoDEA shall cooperate in the delivery of related services to eligible dependents with disabilities, ages 3 through 21 years, who require such services to benefit from special education and related services in accordance with DoD Instruction 1342.12 and DoD Manual 1342.12.
